GEOG INFO SYSTEMS (GIS)

GIS 100 —   Introduction to Geographic Information (AS) (3 credits)
This course is a broad and somewhat intensive introduction to the study of Geographical Information Systems (GIS). By learning to use ArcView, a computer based mapping software, you will learn how to work with spatial data as well as how to organize, query and present such data. We will do this by working with various examples and applications from the environmental and social science.
