

# TECHNOLOGY

---

The IT support system serves as a central place for account issues, computer issues and general technology questions. A variety of hardware and software products are sold with academic discounts and the university also partners with our preferred vendors to offer discounted laptops and desktops to Niagara University students.

All students are given a personal email account, an account to myNU (a Webbased personalized student portal system), and an account to a system which allows faculty to make course material available over the Internet. This is used both to support classroom courses and to provide distance-learning courses. Niagara University partners with Google to offer the full Google Apps suite to students, offering such services as calendars, contacts, email (Gmail), Google+, websites, and more. Students can use Google Drive to store their files and collaborate in the cloud for access on campus or off.

Information Technology can be reached

- via phone at 716.286.8040; and
- through their Web page at [www.niagara.edu/it](http://www.niagara.edu/it) (<http://www.niagara.edu/it/>).
