

ACADEMIC SERVICES

Academic Services

The Division of Academic Services within Academic Affairs includes the Academic Success Center, the Academic and Career Exploration Program (ACEP), and the Office of the Dean of Academic Services. A division that is collaborative across sectors and unites Niagara University's five colleges and the Academic and Career Exploration Program (ACEP) to promote student engagement, academic success, and retention.

Academic Services' cross-collaborative mission reflects the Catholic and Vincentian traditions by providing programs and services that respond compassionately to student needs. They serve as academic coaches, advisors, mentors, teachers, and tutors that create opportunities for students to discover their interests, develop their academic skills, and persist toward graduation.
