

COMPUTER CRIME

Goals

Crime committed with the use of computers now ranges from relatively minor acts of consumer fraud, to more serious crimes in which drug traffickers can move billions of dollars of illegal drug money, to major crimes that can paralyze entire financial networks and national security systems. The computer crime minor seeks to introduce students to the basic principles of this unique form of criminality. Students will gain a foundation in the criminal justice system and the first steps in the identification and detection of computer criminality.

Minor

- Computer Crime, Minor (<http://catalog.niagara.edu/undergraduate/programs-az/arts-sciences/computer-crime/computer-crime-minor/>)
