

# INEQUALITY, RACE, AND JUSTICE, MINOR

---

As our nation grapples with racial injustice people are considering new ways to elevate those who have been marginalized. This involves changing norms and how organizations function. It also involves greater awareness and understanding of our history, political system, and criminal justice apparatus. Students with a minor in Inequality, Race, and Justice will be better positioned to take roles in leadership and be among the innovators who will work for change and social justice both within and beyond established institutions.
