

MANAGEMENT, B.S.

This Management degree option is the most popular and flexible. It is designed to ensure that a student has the required breadth of basic business and management knowledge in accounting, economics, marketing, operations management, people management and finance. With this solid integrative foundation, students may then select their final group of courses to self-design a program of study. For more information, contact Christopher Wright, Ph.D., at cwright@niagara.edu.
