

B.S. - SUPPLY CHAIN MANAGEMENT

The Bachelors of Science in Supply Chain Management prepares students for a well-paid and fast-growing profession that is the lifeblood of modern businesses. They learn about this dynamic field that keeps products and services moving across the world on schedule in industries such as automotive, e-commerce, healthcare, food, and retail. This program helps them develop the confidence they need to succeed in unique ways by solving problems, working with others, engaging with technology and data, and more.

Through the College's Center for Supply Chain Excellence, Supply Chain majors gain direct connections to supply chain management professionals, providing them with diverse opportunities to enrich their learning experiences and expand their professional network.
