LITERACY, MINOR

Deciphering a word problem in mathematics or comprehending a chapter in social studies is an example of the need for strong literacy skills critical for success in contemporary K-12 schooling. Additionally, most careers these days require well-developed reading, writing and listening skills.

There are many dedicated teachers who effectively teach literacy skills, but many students struggle to attain the expected literacy benchmarks. Schools today are seeking teachers specifically trained in enhancing the literacy performance of at-risk readers.

Emphasizing problem prevention and correction at all student levels, this high-demand minor in literacy is available to undergraduate education majors only. Maximize your dual initial teacher certification program by selecting the coursework below a few of which are already part of your program requirements!

Code	Title	Credits
EDU 271	Found Literacy Instruction	3
